

Power BI Training – Learning Tracks

Benefits / Features	Foundation (8 hrs)	Intermediate (16 hrs)	Expert (16 hrs)
Ideal For	Beginners exploring Power BI	Working Professionals	Business/Data Analyst professional
Course Duration	8 Hours	16 Hours	16 Hours
Power BI Desktop Coverage	✓	✓	✓
Power BI Service (Workspace & Sharing)	🔵 Introduction	✓ Standard Setup	✓ Full Implementation & Governance
Power BI Mobile App	✗	✗	✓ Included
Data Ingestion Sources	Excel, CSV	+ SQL Server, Web, SharePoint	+ APIs, Azure, Cloud Databases
Power Query (ETL)	Basic Cleaning & Transformation	Advanced Transformations, Merge, Append	M Language, Parameters, Automation
Data Modeling	One-to-Many, Star Schema	Hierarchies, Many-to-Many	Composite Models, Role-Playing Dimensions
DAX (Data Analysis Expressions)	Basic Formulas & Measures	SUMX, CALCULATE, FILTER	RANKX, Variables, Time Intelligence, Context Transition
Visualizations & Reports	Bar, Line, Pie, Card, Table	KPI, Bookmarks, Custom Visuals	Dynamic Navigation, Drillthrough, Mobile Optimization
AI Visuals (Key Influencer, Q&A)	✗	✗	✓ Included
Copilot in Power BI	✗	✗	✓ Full Integration with Generative Insights

Integration Tools	✗	Excel	Power Automate, Power Apps, APIs
Row-Level Security (RLS)	✗	Overview	✓ Implementation & Maintenance
Governance & Deployment Pipelines	✗	Overview	✓ Advanced Setup
Automation in Power BI	✗	✗	✓ Data Refresh, Power Automate, Alerts
Report Optimization & Performance Tuning	✗	✓ Basics	✓ Advanced Optimization
Certificate of Completion	✓	✓	✓
Learning Outcome	Create basic reports & dashboards	Build interactive dashboards & models	Automate insights using AI & Copilot
Hands-on Projects	1 Mini Project	2 Real-Time Projects	3 Advanced Projects (AI & Copilot)
