# 📊 Python Bootcamp – Summary View (Brochure Style)

Benefits / Features	Foundation (8 hrs)	Python for Working Professionals (16 hrs)	Advanced Python for Data Analyst/Data Science (16 hrs)
Ideal For	Beginners / Non-Tech Professionals	Data Analysts / Power Users	Data Engineers / ML & AI Enthusiasts
Core Focus	Python Basics & Scripting	Data Analysis & Visualization	Machine Learning, Automation & AI
Programming Fundamentals	✅	✅	✅
Data Structures & Functions	✅ Basic	✅ Advanced	✅ Expert-Level
File Handling	✅	✅	✅
NumPy / Pandas	❌	✅	✅ Advanced
Matplotlib / Seaborn	❌	✅	✅ Advanced
SQL Integration	❌	✅	✅
Exploratory Data Analysis (EDA)	❌	✅	✅ Advanced
Machine Learning (Scikit-learn)	❌	❌	✅
Data Engineering / Automation	❌	✅ Basic	✅ Advanced Pipelines
ChatGPT & AI Integration	❌	❌	✅ Free & Open-Source Tools
Certificate of Completion	✅	✅	✅

Learning Outcome	Write and run Python scripts	Analyze and visualize business data	Automate, predict, and optimize data intelligence
Hands-on Projects	1 Project	2 Projects	3 Advanced Projects
Project Domains	Sales / HR / Finance / Supply Chain	Sales / HR / Finance / Supply Chain	Sales / HR / Finance / Supply Chain
